DETAILED ACTION

1. This Office Action is response to APPLICANTS' AMENDMENT filed on 01/27/2009.
2. Claims 81-82, 93-94, 108-109 and 121-122 have been cancelled.

EXAMINER'S AMENDMENT

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with John S. Golian (Reg. No.: 54,702) on 02/24/2009 at (816) 559-2021.

The application has been amended as follows:

Claim 91:

In the first line of claim 91, "One or more computer readable media" is replaced with "One or more computer readable storage media"

Claims 92, and 95-102:

In the first line of claims 99, and 95-102, "The computer readable media of claim 91" is replaced with "The computer readable storage media of claim 91"

Claim 116:

In the first line of claim 116, "One or more computer readable media" is replaced with "One or more computer readable storage media"

Claims 117-120 and 132-128:

In the first line of claims 117-120 and 123-128, "The computer readable media of claim 116" is replaced with "The computer readable storage media of claim 116"

4. Claims 79-80, 83-92, 95-107, 110-120 and 123-128 are allowed.

Allowable Subject Matter

5. The present application has been thoroughly reviewed. Upon searching a variety of databases, the examiner respectfully submits that claims 79-80, 83-92, 95-107, 110-120 and 123-128 are allowed in light of the applicants' argument and in light of the prior arts of made record.

The following is an examiner's statement of reasons for allowance:

The closest prior arts, in combination of Huang et al. (US Patent No. 6,571,245 B2), Vincent (US Patent No. 4,881,179) fail to teach wherein setting the operating system user-access permissions comprises: verifying that one or more operating system file shares exist from which the one or more shared items represented by the virtual folder can be accessed remotely; and setting

Art Unit: 2162

permissions on the one or more operating system file shares to allow the one or more sharees to access the shared items represented by the virtual folder.

These distinct features, in conjunction with all other limitations of the dependents and independent claims render claims 103-107, 110-120 and 123-128 them allowable.

And in combination of Huang et al. (US Patent No. 6,571,245 B2), Vincent (US Patent No. 4,881,179) and Ermel et al. (US Patent No. 5,835,094) fail to teach setting permissions on the one or more shared items that are represented by the virtual folder to provide the one or more sharees direct access to said shared items stored on the user's computing device, wherein setting permissions comprises: verifying that an operating system file share exists from which a first shared item represented by the virtual folder can be accessed remotely; and if an operating system file share exists, setting an operating system permission property on the operating system file share, wherein the operating system permission property is set so as to allow the one or more sharees access to the first shared item represented by the virtual folder.

These distinct features, in conjunction with all other limitations of the dependents and independent claims render claims 79-80, 83-92, 95-102 them allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
